Education

2024 – 05/2027 (exp.) B.C.A. (Computer Applications) at SRM Institute of Science and Technology, Chennai, India

- Current CGPA of 9.3/10
- Focus on Cloud & DevOps, Web and App Development, Python, Linux and Networking

2024 Velammal Vidyalaya, Avadi, Chennai, India

- Higher Secondary Education, graduated with 77.2%

Practical Experiences

In progress DevOps Engineer Intern at Skillmate.ai

- Support the development team with application deployment, configuration and development workflows
- Assist with server maintenance, monitoring and troubleshooting to maintain system availability
- Perform basic security checks; hands-on work with DevOps practices, cloud infrastructure, Linux and networking

02/2026 – 04/2026 Student Intern at SRMIST Ramapuram, India

- Built the frontend from scratch, designed the initial MVP and refined responsive interfaces based on feedback
- Contributed to backend development and database integration in a collaborative full-stack team

01/2026 – 03/2026 Full Stack Development Intern at EDUTANTR (remote)

- Developed the responsive front end of the Fairshare web application: expense tracking, fair splitting and balance management
- Integrated front-end components with backend APIs and collaborated remotely to deliver a functional solution

05/2025 – 06/2025 Cybersecurity Intern at Codec Technologies

- Developed a Python password strength checker from scratch using conditional logic and regular expressions
- Built a scoring system classifying passwords as Weak, Medium or Strong, with real-time improvement suggestions

Academic Projects

Fairshare – Expense Sharing Web App

- Automates shared expense management for students, roommates and travel groups; calculates balances and pay/receive amounts

Boutique Management System

- Manages customers, orders, tailoring measurements, appointments, inventory and payments, reducing manual work

Linux Server Administration – Automated Backup System

- Bash and Cron based compressed (tar) backups with Linux permissions and user management for secure, consistent data protection

Small Office Network (Cisco Packet Tracer)

- Designed a secure network with 1 router, 1 core switch, 3 departmental switches (HR, Finance, IT), 1 server and 6 client PCs using VLANs, Router-on-a-Stick and trunk links

Awards and Achievements

1. Winner of 5+ inter-college hackathons
2. Selected for the National-Level Bug Bounty programme by C-DAC
3. Recognised student of the Department of BCA, SRM Institute of Science and Technology

Skills

Programming & Web	Python, Java, HTML, CSS, Expo
DevOps & Systems	Linux administration, Shell/Bash scripting, Cron jobs, Docker, server monitoring & troubleshooting, cloud infrastructure (exposure)
Networking & Security	VLANs, inter-VLAN routing, trunking, static IP addressing, Cisco Packet Tracer, password validation (Regex), Linux permissions
Databases & Tools	MongoDB, Git, GitHub, VS Code, Claude
Certifications	MongoDB Course Completion; Basics of Networking (Cisco); Docker Badge (Microsoft)
Languages	Tamil (native), English (professional)

Research Interests

Proposed Area	Intelligent Cloud/Edge Computing for Secure and Efficient Resource Management
Research Plan	"AI-Driven Resource Optimization and Security Framework for Cloud-Edge Computing Environments"

Extracurricular Activities

2024 – 2027	Event Coordinator & Student Coordinator at SRM Institute of Science and Technology, Chennai, India ▪ Plan and coordinate student events, working with teams, participants and organisers ▪ Host and conduct events, communicating clearly and confidently with audiences of 500+ students
